Letter 89-45

Subject: Systematic Alien Verification for Entitlements (SAVE)

INTRODUCTION

The purpose of this letter is to define for counties the three error messages and seven response codes that could show up on the daily SAVE Reports and the seven response codes that will be in the revised monthly SAVE Statistical Report. These response codes and error messages are generated by Immigration and Naturalization Services/Martin Marietta Data Systems (INS/MMDS) and the Health and Welfare Data Center (HWDC) when the AP20, AP25, and AP22 online/batch SAVE transactions are processed.

The latter portion of this letter is comprised of a brief description of the revised monthly SAVE Statistical Report, RS-SAV200-R001, (see Attachment B) and the SAVE Statistical Summary Reports, RS-SAV200-R002 through RS-SAV200-R005, (see Attachments C, D, E, and F). Counties should begin receiving these monthly reports by mail in June. The daily Save Report, RS-SAV10-R001, (see Attachment A) is currently being sent online to counties via their printers each morning.

BACKGROUND

In All County Welfare Director's Letter (ACWDL) 88-59 the Systematic Alien Verification for Entitlements (SAVE) system specifications and data instructions were provided to the counties in an Attachment entitled "Systematic Alien Verification for Entitlements (SAVE) County Input Requirements." The letter and Attachment encompassed SAVE background information, the general and detailed SAVE system process, how to use the SAVE online/batch system, and the SAVE transaction record layouts. In addition, ACWDL 88-68 provided counties with the policy information needed to conduct the SAVE program which included background information on the Immigration, Reform and Control Act of 1986 (IRCA) and the county requirements established by passage of SB 175.

This ACWDL is primarily being written to provide more detailed information on the daily and monthly SAVE reports and the response codes and error messages that are generated from the county SAVE transactions.

SAVE TRANSACTIONS

Attachment I (Pages 9, 10, 11, and 14) of ACWDL 88-59, provides detailed instructions for counties on how the SAVE primary verification requests for an alien's immigration status are obtained.

Basically, verification requests are done in conjunction with IEVS transactions (AP20 and AP25) and through the online and batch SAVE only transactions (AP22). The online screens for each of these transactions is generated by choosing an option from the IEVS menu. The AP20 (option C) and AP25 (option M) transactions are used to collect wage and asset information and, if needed, the alien number can be entered to also request alien status information. The alien information is printed the next day and the wage data and abstracts are printed twice a week. The AP22 transaction allows counties to request immigration information only.

When the revised monthly SAVE Report, number RS-SAV200-R001, becomes available in June, (see Attachment B, Items A, B, and C under I. Summary of Transactions Submitted) counties will be able to review their monthly and year-to-date figures for AP20, AP25, and AP22 transactions submitted to INS/MMDS for both online and batch.

SAVE RESPONSE CODES

The Immigration and Naturalization Services/Alien Status Verification Index (INS-ASVI) data base responds to each SAVE transaction by assigning seven possible response codes that number 1 thru 7. These codes indicate if an alien is in satisfactory immigration status or that secondary verification is required.

The seven possible responses the counties will receive on the daily SAVE Reports are identified below as INS codes 1 thru 7 (note: the number will not appear on the report, only the message emphasized in capital letters) and on the Statistical Report identified in Part II and Part III, items A through I.

Temporary employment authorization is customarily granted for a 6-month period, but may be extended for a longer time.</p>

-----------------------	--------------	---

H	5	*INSTITUTE SECONDARY VERIFICATION (information on the ASVI data base)*
---	---	--

A request to validate alien documentation but the information is not complete enough to validate primary verification. From the form G-845, secondary verification is performed by an INS verifier (ISV) using various automated or manual services.

I	5	*INSTITUTE SECONDARY VERIFICATION (requested record not on file)*
---	---	---

A request to validate alien documentation after or in lieu of primary verification using form G-845. Secondary verification is performed by an INS verifier (ISV) using various automated or manual services.

Response numbers 1, 2, 3, 4, 6 and 7 represent that alien registration documentation is on file with INS and also indicates that an alien is in satisfactory immigration status with INS. Concurrently, when satisfactory immigration status has been obtained, all individuals must then meet all the eligibility requirements as set by Medi-Cal. For the Medi-Cal Policy application of these seven INS codes please refer to ACWDL's: 88-66; 88-68; 88-84; and 88-87.

ERROR MESSAGES

In addition to the INS/MMDS response codes, the State issues three error messages that may show up on the daily SAVE report, RS-SAV100-R001. They are:

1. Match Not Made Because of Invalid Alien Number--??Last Eight Characters Must Be Numbers?? (State Issued Response.)

- A valid alien number was not entered on the transaction received by the State. Correct and resubmit the transaction.

2. Information Was Not Returned From INS (State Issued Response.)

- Information requested by the State was not returned by INS/MMDS. Contact the MEDS HOTLINE at (916) 322-4288.

3. ??? Invalid Employer Code ???

- INS/MMDS returned and employer code not known to the State system. Contact the MEDS HOTLINE at (916) 322-4288.

REVISED SAVE STATISTICAL REPORTS

The first SAVE Statistical Report (see Attachment G) was originally designed by Data Systems to provide State management and staff with a visual tool by which to monitor the progress of the SAVE program. As the report gained more visibility through its random distribution at SAVE, CWDA, IEVS User Group, and CMAG meetings, county requests for the report increased and it was determined that the State would revise the report format and begin mailing it to each County IEVS/SAVE coordinator on a monthly basis starting in June. Although in a different format, the revised State SAVE report (RS-SAV200-R001) and the four Statewide summary reports RS-SAV200-R002, RS-SAV200-R003, RS-SAV200-R004, and RS-SAV200-R005 (Attachments C, D, E and F) include the same breakdown of information as the original report with the exception of two new categories:.....the name match percentage and the number breakdown by aid category.

NEW CATEGORIES

The "Monthly and Year-to-Date Summary of Information From INS by Aid-Category" on the Monthly County Statistics Report (see Attachment B, Parts II and III) and the "Total Verified With Name Match" on the Statistics Monthly Percent Verified Report (see Attachments B and C) are two new categories of information that have been added in the revised SAVE reports.

The breakdown by aid-category was added to provide Aid To Families With Dependent Children (AFDC), Non-Assistance Food Stamp (NAFS), and Medi-Cal programs within each county the opportunity to review the number of SAVE transactions done by each individual department.

The category on 'total verified with name match' was added in an attempt to account for records for which primary verification was reported but, the county may be required to do a secondary verification as the name reported by the county may not match the

Page 6

name returned by Immigration and Naturalization Services (INS). The State uses as its criteria to do the name match the first five letters of the first and last name on each SAVE record. The name match identification is also included on the daily roster and monthly SAVE reports.

The SAVE statistical reports should be self-explanatory; however, if you should have any questions please contact Maureen McCreary, Medi-Cal Eligibility Branch, Systems Unit at (916) 322-6455.

Sincerely,
